Community Health Collaborative Advisory Board

• Purpose
  • To inspire, motivate and lead collaborative efforts
  • Make connections and enhance collaboration among public and private organizations
  • Collective impact on quality of life in Pasco

• Responsibilities
  • Facilitate efforts for positive, collective impact on health and quality of life;
    • Community health assessment and improvement planning process
    • Publish and guide implementation of a Pasco County health improvement plan
    • Communicate progress, results and outcomes of the health improvement plan

• Benefits
  • Be a leader on broad local health issues;
    • Educate decision makers about health status and resources in Pasco County
    • Be part of a strategic group focused on opportunities
    • Help improve or resolve current health issues by increasing leverage of current resources and increase future funding pool.
Community Health Collaborative Membership

• Purpose
  • Lead collaborative efforts to improve health and quality of life for Pasco residents
  • Accomplish the shared goals of the community health improvement plan

• Responsibilities
  • Provide pertinent data related to your specific coalition/partnership’s focus area and target audience that will contribute to the community health assessment.
  • Provide input to the identification of the Pasco health priorities
  • Implement plans and strategies in your focus area
  • Participate in regular progress reporting and collaborative problem solving to address gaps and challenges

• Benefits
  • Gain efficiencies through shared planning and reduction of duplicative efforts
  • Voice your coalition/partnership’s challenges, progress and outcomes
