1. Stay calm. Quickly gather what you will need, unless you are told to protect your breathing. Cover your nose and mouth with a handkerchief or mask. Keep windows and doors closed.

2. If you are told to protect your breathing, cover your nose and mouth with a handkerchief or mask. Keep windows and doors closed.

3. If you are told to protect your breathing, cover your nose and mouth with a handkerchief or mask. Keep windows and doors closed.

4. Evacuate or Stay? If you must evacuate, go to the nearest sturdy building for shelter. If you cannot safely get to a sturdy building, stay there as long as you are safe. If you are homebound, but not under the care of a home health agency, contact your physician to determine your best plan for evacuation.

5. Keep a Paper Trail

- Keep a record of all your important financial and personal documents. Store these documents in a secure location.
- Make copies of all your important financial and personal documents. Store these copies in a secure location.
- Keep a backup of all your important financial and personal documents. Store this backup in a secure location.

6. Keep Your Pets Safe

- If you evacuate, do not leave your pets behind. Take them with you.
- If you stay home, keep your pets indoors. If possible, move them to the upper floor of your home.
- If you need to evacuate and you have a pet, you may be able to take it with you. Check ahead of time to see if your destination will allow pets.

7. Protect Your Home and Business

- Make sure your home is secure. Turn off all utilities and secure all doors and windows.
- Make sure your business is secure. Turn off all utilities and secure all doors and windows.
- Make sure your home and business are secure. Turn off all utilities and secure all doors and windows.

8. A Word About Insurance

- Your insurance policy may be different from others. Check with your insurance company to see what is covered.
- Your insurance policy may be different from others. Check with your insurance company to see what is covered.
- Your insurance policy may be different from others. Check with your insurance company to see what is covered.

9. Keep a Plan

- Make a plan for what to do in case of an emergency. Take the time to prepare now so you will be ready when an emergency occurs.
- Make a plan for what to do in case of an emergency. Take the time to prepare now so you will be ready when an emergency occurs.
- Make a plan for what to do in case of an emergency. Take the time to prepare now so you will be ready when an emergency occurs.
such as downed power lines, are cleared. It's important to re-enter immediately and call 9-1-1 or your natural gas service provider.

Avoid driving, especially through water. Avoiding traffic signals will be inoperable. Treat any traffic signals as a 4-way stop.

Businesses – Have a valid picture ID, keys, and cash available. Businesses should have a written contract or estimate for repairs, reconstruction, roofing, or filling.

Inspect the electrical system and have a qualified licensed electrician inspect it before turning the power back on. Don’t burn trash. Don’t burn or throw out any supplies or trash that have come into contact with flood water. Don’t use gas appliances before turning the power back on. Don’t start up appliances before they have been inspected by a licensed electrician.

Clean up & Repairs

- Make sure your windows, doors and garage doors are weather sealed and closed tightly.
- Don’t use a generator that is not properly licensed.
- Don’t use generators inside a house or mobile home.
- Don’t use gas appliances before they have been inspected by a licensed electrician.

If a disaster struck, would your family be ready? Would your business be prepared? Would you know what to do? Here are some tips to help you prepare for emergencies.

1. **Your Disaster Plan**
   - Prevent panic and confusion by making sure everyone knows where to go and what to do in an emergency. Let everyone know:
     - **As storm approaches:** What to do if you stay or leave your home.
     - **As storm passes:** What to do when the storm passes.

2. **Disaster Supplies**
   - Have a plan for what items you will need before the storm hits and make sure you have enough items.
     - **Emergency kit** for each member of your family.
     - **Flood insurance** to cover your home and business.

3. **Bracing For A Hurricane**
   - Check your home before and after a storm.
   - **Before the storm:** Review your home insurance policy and contact your insurance provider.
   - **After the storm:** Contact your insurance provider to report damage.

4. **Evacuation of Your Neighbor**
   - Help your neighbor if they are evacuating.
   - **As storm approaches:** Help your neighbor prepare for evacuation.
   - **As storm passes:** Help your neighbor recover from the storm.

5. **Help Your Neighbor**
   - Check on your neighbor if you are evacuating.
   - **As storm approaches:** Offer assistance to your neighbor.
   - **As storm passes:** Help your neighbor recover from the storm.

6. **Keep Your Business Safe**
   - Keep your business safe during an emergency.
   - **As storm approaches:** Secure your business.
   - **As storm passes:** Inspect your business for damage.

7. **Project Your Home and Business**
   - Project your home and business for emergencies.
   - **As storm approaches:** Plan for your home and business.
   - **As storm passes:** Recover from the storm.

8. **A Word About Insurance**
   - A word about insurance.
   - **As storm approaches:** Review your insurance policy.
   - **As storm passes:** Contact your insurance provider.

9. **Be Alert to Storm Warning Information**
   - Be alert to storm warning information.
   - **As storm approaches:** Listen to the news for storm warnings.
   - **As storm passes:** Follow up with your insurance provider.

10. **What To Expect After A Disaster**
    - What to expect after a disaster.
    - **As storm approaches:** Be prepared for a disaster.
    - **As storm passes:** Recover from the disaster.

---

Note: This information is intended for general guidance and should be verified with local resources and authorities before taking any action.
**1. Prepare Your Family and Business Plan**

- Make sure your family and business have a disaster plan in place.
- Include evacuation routes and meeting points.
- Ensure that everyone knows what to do in case of a disaster.

**2. Protect Your Home and Business**

- Check your insurance policy to ensure it covers flood and wind damage.
- Secure your property by boosting up your windows and doors.
- Keep an emergency kit with essentials such as food, water, and first aid supplies.

**3. Stay Informed**

- Listen to local officials and weather updates.
- Have a plan for evacuating if necessary.
- Have a backup power source like a generator.

**4. Evacuate or Stay?**

- If you decide to stay, make sure your home is ready.
- If you decide to evacuate, follow the evacuation route and plan.

**5. Help Your Neighbor**

- Check on your neighbors, especially those who are elderly or have special needs.
- Offer help with food, water, or supplies if needed.

**6. Keep Your Pets Safe**

- Pets are important and should be included in your disaster plan.
- Keep a supply of water and food for your pets.
- Have a place to take your pets if you need to evacuate.

**7. Know Your Disaster Safety Tips**

- Prepare a family emergency plan.
- Build a disaster kit with essentials.
- Stay informed and listen to your local officials.

**8. A Word About Insurance**

- Review your insurance policy to ensure it covers all types of disasters.
- Keep records of all your assets and insurance policies.
- Contact your insurance provider if you have any questions.

**9. Keep a Paper Trail**

- Keep copies of important documents in a safe place.
- Use digital copies for additional protection.
- Keep a list of contact information for your insurance provider.

**10. What to Expect After a Disaster**

- Expect delays in services like electricity, water, and food.
- Expect to clean up and repair damage to your home.
- Expect to deal with stress and anxiety.

---

**Helpful Tips for Avoiding Fire**

- Be extremely careful with fire.
- Avoid driving, especially through water!
- Avoid re-igniting fires.
- Always keep fire extinguishers handy.

---

**Disaster Supplies**

- First aid kit
- Batteries
- Food and water
- Blankets
- Flashlights
- Batteries
- Tools and supplies

---

**Business Continuity Plan**

- Go online to https://www.ready.gov.
- Hire only licensed contractors.
- Be cautious of anyone coming to your home or business in case of a power outage.

---

**Emergency Broadcasts**

- Listen for weather updates on local radio.
- Check your Disaster Supplies.
- Get any necessary medications or prescriptions.

---

**Emergency Information**

- Have a plan for evacuating your pets or service animals.
- Make sure your pets are up to date on vaccines.
- Have a plan for evacuating your pets or service animals.

---

**Emergency Response Team (CERT)**

- It also directs you to additional community to effectively prepare for, respond to, and recover from disasters.
- CERT in your neighborhood may be able to save lives and property.
- It also directs you to additional community organizations, schools, and the business community.

   - Protecting Your Property from Flood
   - Pet Disaster Supplies

8. A Word About Insurance
   - 6 Steps to Proper Insurance Protection.
1. If an older adult lives in a nursing home, assisted living facility (ALF) or residential care facility (RCF), they usually have a disaster plan in place. Follow the facility’s instructions, or if you are the primary caregiver, coordinate with the facility. If there is an emergency, you can take them to the nearest shelter or a safer place such as a friend or relative’s home. If parents or siblings live nearby, they might have the person’s best interest at heart.

2. If you cannot get away from your home, and you do not have a garage to shelter in, you may be able to get into a vehicle and drive away from the floodwaters.

3. If you have pets, leave them with a friend or relative who can care for them. If there is a shelter that allows pets, consider bringing your pet to prove your pet insurance, or a local pet-friendly shelter. If possible, keep them with you. Make sure your pets have a collar and ID, and that the ID includes your contact information. If you are evacuating, make sure your pets are in a carrier or cage.

4. If your pet is left at home, make sure it has access to water and food. If possible, keep your pet in a secure area with a closed door, and make sure the area is well ventilated.

5. If you need to leave your home, make sure your pets have access to food and water, and make sure they are in a carrier or cage. If possible, keep your pets in a secure area with a closed door, and make sure the area is well ventilated. If your pet is left at home, make sure it has access to food and water, and make sure they are in a carrier or cage. If possible, keep your pet in a secure area with a closed door, and make sure the area is well ventilated. If you are evacuating, make sure your pets have access to food and water, and make sure they are in a carrier or cage. If possible, keep your pet in a secure area with a closed door, and make sure the area is well ventilated.
4. Evacuate or Stay?

If You Can Stay Home, Shelter-In-Place

Everyone has a natural instinct to seek shelter at the first sign of danger. But it's important to make a plan for protecting yourself and your family. Here are some tips:

- Take cover in a sturdy, interior room or area.
- Use sturdy objects as barriers against falling debris.
- Stay away from windows, doors, and glass surfaces.
- Turn off all electrical equipment and other appliances.
- Close all water faucets and shut off gas at the main valve.

If You Must Evacuate

- Follow the evacuation route provided by local authorities.
- Pack an emergency kit, including food, water, clothing, and medications.
- Stay informed by listening to news reports or using a weather radio.
- Keep your pet's supplies with you.

5. Keep Your Pets Safe

- Keep your pets indoors during a hurricane.
- Provide food and water for your pets.
- Keep a leash and ID tag on your pet at all times.
- Keep your pet on a leash when evacuating.
- Check on your pet frequently during an emergency.

6. Keep a Paper Trail

- Keep copies of important documents in a safe place.
- Use a backup copy of your insurance policy.
- Keep a list of contact information for your doctor and veterinarian.
- Keep a list of your medications and prescriptions.
- Keep a list of your emergency contacts.

7. Protect Your Home and Business

- Secure your home with storm shutters or plywood.
- Protect your outdoor furniture and potted plants.
- Keep your windows closed and your doors locked.
- Keep your garage door closed.
- Keep your pets indoors.

8. A Word About Insurance

- Make sure your insurance policy covers wind damage.
- Check with your insurance agent to see if you need additional coverage.
- Keep a record of all damage and repairs.
- Keep a list of all valuables in your home.

9. Keep a Disaster Supplies Kit

- Include a first aid kit, including prescription medications.
- Include a flashlight, batteries, and a radio.
- Include a grab bag for each family member.
- Include a large plastic bag for cleaning supplies.
- Include a blanket and a sleeping bag.

10. What to Expect After a Disaster

- Expect power outages and water shortages.
- Expect delays in mail and delivery services.
- Expect increased crime.
- Expect increased prices for goods and services.
- Expect increased traffic congestion.

For more information, visit tampabayprepares.org.
An announcement that hurricane conditions (sustained winds of 74 mph or higher) are possible within the specified area. The hurricane watch is issued 48 hours in advance of the anticipated onset of tropical-storm-force winds.

**Hurricane Warning:**
An announcement that hurricane conditions (sustained winds of 74 mph or higher) are expected somewhere within the specified area. The hurricane warning is issued 36 hours in advance of the anticipated onset of tropical-storm-force winds.

**Evacuation Levels**
- **Level A:** Evacuate red areas and all manufactured home residents
- **Level B:** Evacuate red and orange areas and all manufactured home residents
- **Level C:** Evacuate red, orange and yellow areas and all manufactured home residents
- **Level D:** Evacuate red, orange, yellow and green areas and all manufactured home residents
- **Level E:** Evacuate red, orange, yellow, green and purple areas and all manufactured home residents

- To 11'
- To 17'
- To 22'
- To 30'
- To 38'

**Source:** http://www.nhc.noaa.gov/aboutgloss.shtml
USING YOUR COUNTY MAP

1. Locate where you live and work on the map.
2. Determine whether you are in an evacuation area, and if so, what level (color).
3. If you are in an evacuation area, or mobile home/RV, decide where you will go if ordered to evacuate. Your choices include:
   - Home of a relative or friend outside the evacuation zone
   - Hotel/motel outside the evacuation zone (make arrangements staff)
   - Go to a public shelter
   - As a last resort leave the area entirely
4. If you must go to a public shelter, make sure you verify the shelter is open before you go.

HURRICANE THREAT

- The colored areas on the map are vulnerable to storm surge. Storm surge is produced by water being pushed towards the shore by the force of the winds moving around the storm.
- Storm surge creates a path of destruction, wiping out structures as it rapidly surges inland and then recedes. This is a life-threatening situation for anyone who fails to obey mandatory evacuation orders and stays in vulnerable areas.
- Hurricanes are categorized on a scale of 1 to 5, depending on wind strength and destruction extent. Color codes to designate the level of storm surge likely to occur.
- If you live in an area ordered to evacuate, gather your family/pets and emergency supplies, secure your home and leave immediately. Failure to obey a mandatory evacuation order is a violation of state and local laws.

Note: All persons living in mobile homes/RVs must evacuate for all mandatory evacuation orders, regardless of where you are located in the county.

FLOOD THREAT RECOGNITION SYSTEM

Pasco County has a Flood Threat Recognition System that is used by the Division of Emergency Management to monitor and convey threatening river levels to the public. In addition to the information that is displayed on our website (www.pascoemergencymanagement.com), residents should tune to TV and radio weather stations for the latest alerts in special local advisories. Local radio and TV stations for our area are:

- WEUS-FM 89.7
- WLFZ-FM 93.3
- WJFT-FM 94.1
- WUSN-FM 97.3
- WBTX-FM 97.9
- WQXK-FM 99.5
- WMXX-FM 100.7
- WBBQ-FM 104.7
- WQJB-FM 106.3

LOCAL FLOOD HAZARD

The biggest threat of general flooding is during the hurricane season (June through November). Due to the participation of Pasco County in the National Flood Insurance Program (NFIP), homeowners are eligible to purchase flood insurance to protect their property against the hazard of flooding. Flooding in Pasco County is caused by river flooding, coastal flooding, and urban flooding. Flooding is most likely to occur in floodways, riverine and closed basin flooding, and coastal flooding. Flooding damages to infrastructure, crops, and homes.

Tsunami Flood Insurance Rate Maps which indicate required structure elevations to avoid or minimize flooding.

ARE YOU FIREWISE? Wildfires can occur anywhere and can destroy homes, businesses, infrastructure, natural resources, and agriculture. The checklist below provides ways to make your home, yard, and other buildings safer from the impacts of wildfires:

- Thin tree and brush cover and remove dead brush, brush, and leaves from the property
- Mow dry grasses and weeds and maintain an irrigated greenbelt
- Move firewood at least 30 feet from the home and other buildings
- Prune branches to 10 feet above the ground
- Reduce density of surrounding forest
- Clean roofs and gutters of dead leaves, debris, and pine needles that could catch embers
- Replace or repair any loose or missing shingles or roof tiles to prevent ember penetration
- Enclose under-eave and soffit vents or screen with metal mesh to prevent access to the ember entry
- Cover exterior attic vents with metal wire mesh no larger than 1/8 inch to prevent sparks from entering the home
- Repair or replace damaged or loose window screens and any broken windows
- Screen or bow-in areas below patios and decks with wire mesh to prevent ember penetration
- Move any flammable material away from wall exteior – multi, flammable plants, leaves and needles, firewood piles – anything that can burn
- Remove anything stored underneath decks or porches

FOR MORE INFORMATION CALL: 813-929-1212 or 727-847-5878

Shelters are not listed in the order they are opened and shelter openings vary with each emergency depending on the type and intensity of the disaster. Stay tuned to local media for a listing of shelters which will be opened for an event. Do not go to the shelter until local officials announce through the media that the shelter is open.

Pasco County provides a shelter program for those residents requiring special medical needs related care. Special needs shelters will be available for persons requiring more medical care than available in a public shelter but not requiring an acute care facility such as a hospital. If this type of extended care is needed, contact the Pasco County Division of Emergency Management at 727-847-8137 to be considered for registration into this program.
