

Florida Department of Health in Pasco County Dietetic Internship Academic Calendar

Included in the Academic Calendar is the schedule for application, admission, and onboarding referred to as the "upcoming class year calendar" and the schedule for start date, end date, didactic weeks, and other dates that may require travel during the internship referred to as the "current class year calendar." Specific dates are provided as they become available. Otherwise, a general timeframe is provided.

Interns receive a detailed schedule for their class year containing supervised practice rotation dates, assignment due dates, and didactic Friday schedule at the start of the internship.

Full details of the University of North Florida Academic Calendar can be found here:

https://www.unf.edu/catalog/academic-calendar/academic_calendar/
