Didactic Program in Dietetic (DPD) Courses: Include all courses required to meet DPD requirements at your college or university. If a course has not been completed, indicated INC in the No. of Credits column. See instructions on page 6. Use additional pages as needed. (If you have earned credits from multiple educational systems that use different credit units, e.g. semesters and quarters, you must convert all credits to one type of unit.)

I certify the information I have provided in this application is true and accurate and recognize any false or incorrect statements made herein will be grounds for my dismissal from the program. I understand I must provide an original copy of a signed Verification Statement substantiating completion of academic requirements prior to start date of program.

Instructions for Completing Grade Point Averages

CALCULATING UNDERGRADUATE GPA: (If you have earned credits from multiple educational systems that use different credit units, e.g. semesters and quarters, you must convert all credits to one type of unit.)

- Example 1 – Pat completed all courses required for an undergraduate degree in nutrition from one university.
 - Pat should use the calculated GPA on the institution's transcripts.
- Example 2 - Sarah earned an undergraduate degree in sociology with a minor in nutrition. She attended two community colleges and a state university to fulfill all degree requirements. She took several general interest courses while attending these colleges, although the courses did not meet any specific degree requirements. These courses are listed on her transcripts. Sarah also took a ceramics class at a fourth community college during one summer. It was the only course she took from this college and is not one of the three colleges she attended to meet her degree requirements. Sarah will calculate the Undergraduate GPA using the transcripts from the three institutions she attended where she earned credits towards her undergraduate degree. Because Sarah did not transfer her ceramics course grade to her degree granting institution, it will not be included in the Undergraduate GPA calculation. General interest courses Sarah took from the three credit earning institutions will be included.

	College/University 1		College/University 2		College/University 3	
	Credits	GPA	Credits	GPA	Credits	GPA
From Transcripts	15	3.90	24	2.90	89	3.32
Grade Points Earned ^a	58.5		69.6		295.48	

^aTo calculate Grade Points Earned, multiply the number of credits times the GPA for each respective institution separately.

^bTo calculate the Undergraduate GPA; divide the Total Grade Points Earned by the Total Credits. In this example: $423.58 \div 128 = 3.31$.

Total Grade Points Earned = 423.58

Total Credits = 128

Undergraduate GPA_b = 3.31

CALCULATING DPD GPA:

Each university has specific courses which meets Didactic Program in Dietetics (DPD) requirements. The DPD Director at the university where you earned or will earn the Verification Statement indicating you are eligible to apply to a dietetic internship will have a list of these courses. The following scale should be used to calculate Grade Points Earned for your DPD GPA. For repeated courses, list both grades earned but use only the higher grade to calculate the DPD GPA.

Grade earned	Grade Points Earned for each credit
A+, A, A-	4.0
B+, B, B-	3.0
C+, C, C-	2.0
D+, D, D-	1.0

*INC Incomplete - currently enrolled or to be completed.

Totals Credits 17 Total Grade Points 51

To calculate DPD GPA, divide the Total Grade Points by the Total Credits.
In this example: $51 \div 17 = 3.00$

DPD GPA 3.00
